JM Handwritten Desktop License Agreement

This Agreement governs the use of the JM Handwritten font software licensed by Jiří Macík (“Licensor”) to the end user (“Licensee”). By purchasing, downloading, installing, or using the font software JM Handwritten (“Font Software”), Licensee agrees to this Agreement.

1. Grant of License

Licensor grants Licensee a perpetual, non-exclusive, non-transferable license to install and use the Font Software for desktop use only, subject to this Agreement.

This license is granted only to the named Licensee and only for the number of licensed desktop users stated in the applicable order, invoice, or written agreement.

2. Permitted Desktop Use

Licensed Desktop Users may install the Font Software on their workstations and use it in desktop applications to create, edit, view, print, and distribute materials, including print documents, static digital graphics, PDFs, presentations, packaging, signage, editorial work, and non-editable visual outputs such as video titles.

Licensee may convert text set in the Font Software to outlines or include it in final non-editable artwork or delivered files, provided the Font Software itself is not distributed.

3. Uses Not Included

This license does not cover webfont use, website embedding, app embedding, electronic publication embedding, server installation, SaaS, web-to-print systems, template tools, OEM distribution, digital advertising embedding, or any workflow where third parties can access or use the Font Software itself.

Any such use requires a separate written license from Licensor.

4. Restrictions

Licensee may not:

(a) share, lend, sell, sublicense, redistribute, or otherwise provide the Font Software to any third party;

(b) provide the Font Software to clients, contractors, agencies, printers, developers, or production vendors unless they hold their own valid license;

(c) upload the Font Software to any shared server, public repository, or unrestricted cloud location;

(d) modify, adapt, reverse engineer, rename, or create derivative font software from the Font Software;

(e) use the Font Software in any product or service that allows end users or customers to create, customize, select, or generate content with it.

A printer or production vendor may receive final artwork or other non-editable output only, not the Font Software.

5. Backup Copy

Licensee may keep a reasonable number of backup copies of the Font Software for internal archival purposes only, provided they remain under Licensee's exclusive control.

6. Ownership

The Font Software is licensed, not sold. All rights, title, and intellectual property rights in and to the Font Software remain the sole property of Licensor.

7. Named Licensee and User Control

This license applies only to the named Licensee and may not be transferred to another individual, company, brand, project partner, or successor without prior written permission from Licensor.

If Licensee is an organization, it is responsible for keeping the Font Software under internal control and within the licensed user count at all times.

8. Termination

This Agreement remains in effect until terminated. If Licensee breaches this Agreement, Licensor may terminate it immediately by written notice. Upon termination, Licensee must stop using the Font Software and delete or destroy all copies in its possession or control.

9. Warranty and Liability

Licensor warrants only that Licensor has the right to license the Font Software. The Font Software is provided "as is," without any other warranty. Licensor is not liable for any indirect, incidental, or consequential damages arising from use of, or inability to use, the Font Software.

10. Governing Law

This Agreement is governed by the laws of the Czech Republic.

11. Entire Agreement

This Agreement is the entire agreement between Licensor and Licensee regarding the Font Software and supersedes all prior discussions or understandings relating to it.
